Forecast for Monday 20 Dec 2021

Weather: Another dry day. Areas of low cloud or fog in many of the glens, although largely clear of cloud towards the west coast. The summits above the cloud, although this becoming confined to the munro tops in the afternoon

Chance of cloud free mountain/hill tops above 800m: 80% on the high summits. Away from the summits, 40-60%, with the best chance in the west.

Visibility: Very good or excellent outside areas of low cloud. Patchy cloud with bases around 300-500m, occasionally to lower levels. Cloud tops around 700m at first but rising to 900m, occasionally 1000m, in the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

A chance of cloud inversions again from the summits. Note freezing level around 800m in the east early morning. Beware of remaining snowfields which are likely to be hard and icy.

Forecast for Tuesday 21 Dec 2021

Weather: Another dry day. Rather cloudy, but with some bright or sunny spells in the afternoon. Munro tops above the cloud. Little change through the evening.

Maximum wind: Light and variable.

Chance of cloud free mountain/hill tops above 800m: 80% above munro level. 30-40% below this.

Visibility: Very good outside of low cloud, excellent where summits above the cloud. Cloud bases around 500m with the tops generally around 900m.

Temperature: **Glens:** Minus 1 Celsius rising to plus 1 Celsius
At 800m: Minus 1 or minus 2 Celsius
Freezing level: 300-400m.
